Fitter: Deya (Partner carpenter: CITINEA)

Completion date: 2021

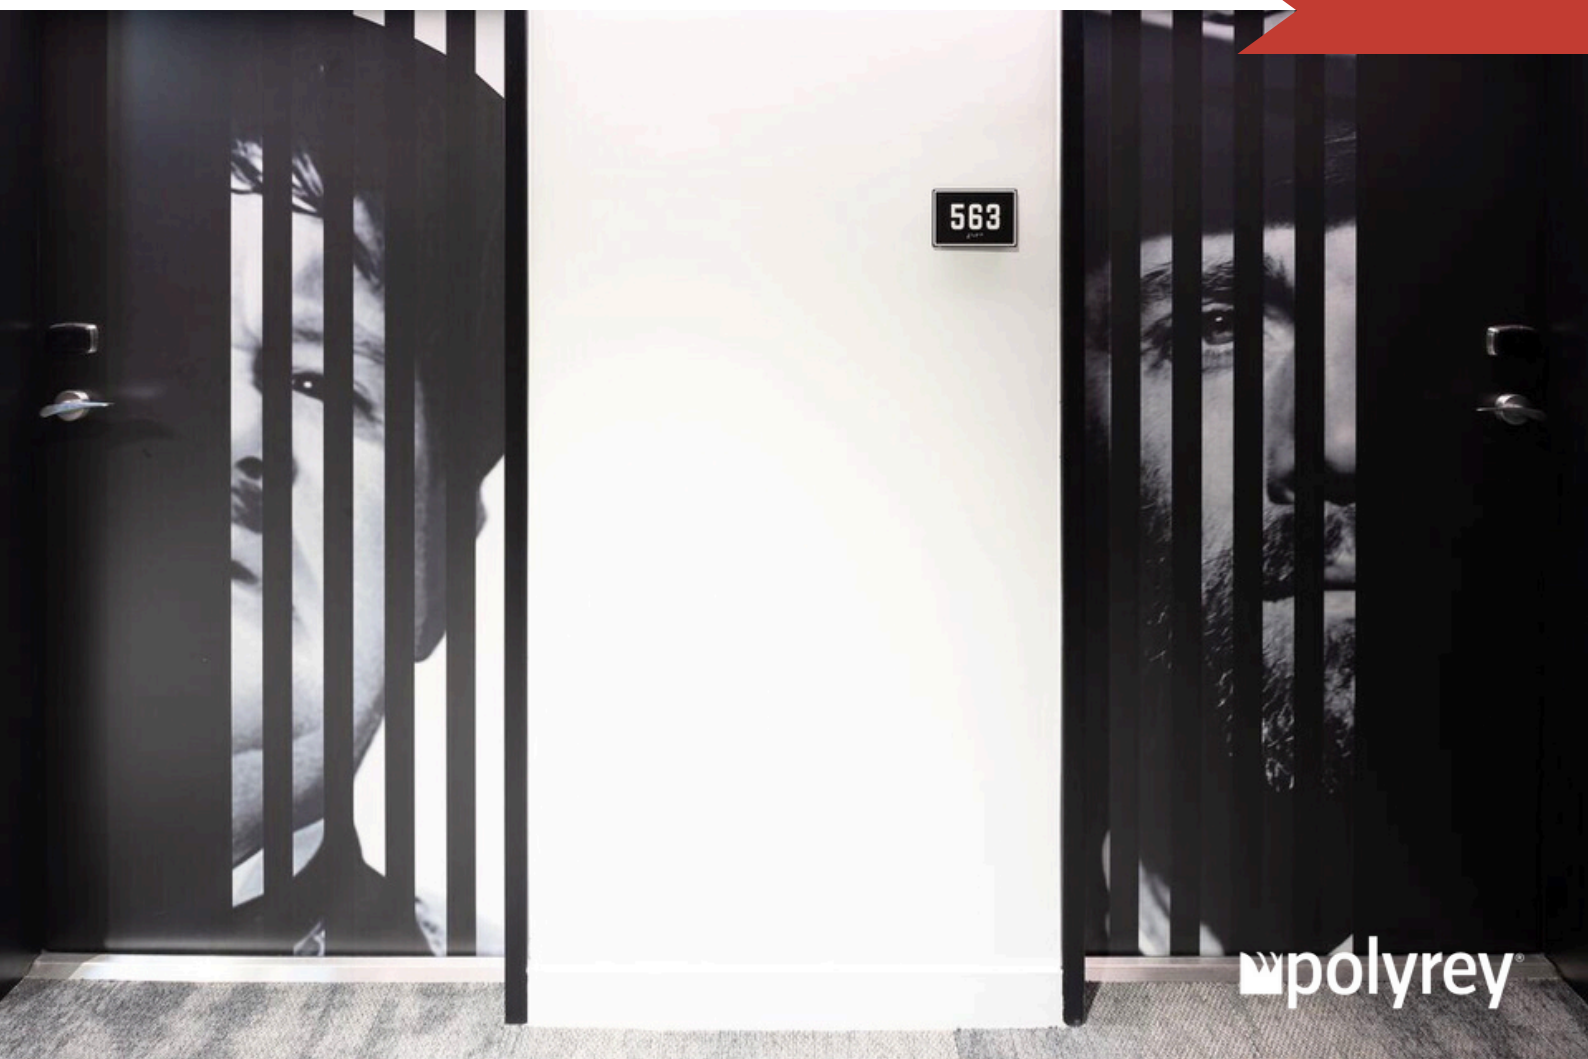

For the renovation of the Moxy Lyon Saint-Exupéry hotel, Polyrey showcased its expertise with its Signature range.

The theme of the project was a retro universe inspired by the iconic stars of the 1950s, designed to give character and a unique atmosphere to the hotel's corridors and rooms.

Using high-definition digital printing, Signature made it possible to personalise each door with a stylised portrait, creating a distinctive visual identity.

Beyond design, Polyrey HPL offer the strength, durability and quality essential in a busy hotel environment.

A tailor-made solution that combines striking aesthetics, total creativity and technical performance.

Product benefits

1

Complete customisation
for a unique result.

2

Formats and products suitable for a wide range of applications: HPL laminate, compact HPL laminate, HPL laminate bonded to board.

3

High resistance to impact, scratches and artificial light, far more than stickers solution.

4

Easy maintenance: non-porous, hygienic, easy to clean and durable surface.

Environmental commitment

With HPL laminate, the doors in this hotel are durable against impacts from suitcases and easy for cleaning staff to maintain. As 80% of bacteria are transmitted through contact with contaminated hands and surfaces, the antibacterial properties of HPL laminates on doors are a significant advantage for your hotel!
