CREATIVE

Innovation at the heart of design

We work with external and in-house experts to create decorative products in line with current and future trends.

We design exclusive surface finishes in close collaboration with our suppliers.

We propose bold aesthetic concepts such as MONOCHROM or PREMIER.

We support you in your choices through inspiring presentation tools.

RELIABLE

Reliable products, experts at your service

Our clients recommend our products for their quality and technical reliability*.

Over 60 years of expertise and formulation of our resins allows us to propose high quality, innovative solutions.

We deliver your orders on time.

We commit ourselves through our «My Expert» Service Charter.

RESPONSIBLE

A daily commitment to training, securing, protecting

Our experts can advise you on earning points in the framework of product certifications such as HQE, BREEAM, LEEDS, DGNB...

All our products are antibacterial as standard with no extra cost.

We provide life cycle analysis for all our products.

We commit daily to reducing our energy consumption and waste production.

All our Polyrey HPL® and Reysipur® products are 50 % PEFC certified; our Polyprey® products are 90% PEFC certified.

We also offer a large selection of HPL decors that are FSC Controlled Wood** certified, also sourced from sustainably managed forests.

* Source : 2017 satisfaction survey.

** Upon request, depending on credits.

AT YOUR SERVICE

Polyrey is at your side at every stage of your project to ensure its success and save you time. Known for its product expertise, Polyrey is also committed to quality of service.

The Service Charter

Because your profession requires responsiveness and professionalism, Polyrey commits to :

24 h

Sending your sample
the same day.

2 h

Answering your technical
questions **within 2 hrs***.

45 min

Responding to your Customer Service
requests **within 45 minutes***.

The 4 pillars of excellence

A personalised service

Each of your projects is unique. This is why we support you at every stage through customised services.

Reliable and efficient service

Your project won't wait. We understand the importance of responsiveness : we commit to respecting deadlines.

A service for everyone, everywhere

All over the world, your project is in good hands. We assign you a dedicated contact who speaks your language and the requirements of your country.

Service by experts

Guaranteeing excellence in our support to you is essential. Our teams have sound expertise acquired on the field, through training and a culture of experience sharing.

*If you have a specific question or if your request has a certain level of complexity, we commit to responding within a given time limit.

SANITIZED®

High Pressure Laminate Compact Solid Grade Laminate Melamine Faced Board

All Polyrey products benefit from a Sanitized® antibacterial treatment that eliminates 99,9% of the bacteria.*

Thanks to the antibacterial Sanitized® hygiene function, Polyrey commits to a continual improvement in health and safety for its decorative solutions.

With higher standards than the ones required by the law, Polyrey also benefits from a partnership with Sanitized® AG, whose effectiveness has been proved and demonstrated in several industries.

The certificate released by Sanitized AG is renewed every year following laboratory tests. Rigorous testing ensures constant quality, which is also verified by our laboratory.

Contains biocidal substance
Silver phosphate glass

Integrated within the material in order to ensure antibacterial protection throughout its lifecycle, this biocidal additive does not influence the technical and aesthetic performances of our products.

It is a technological innovation that Polyrey has been able to implement thanks to an integrated manufacturing process, which includes the production of our own resins.

The silver ions encapsulated in glass balls are activated when entering into contact with humidity. They kill surface bacteria and block the cell division process, thus reducing bacteria proliferation.

The Ag+ ion-based Sanitized® treatment is a non-migratory inorganic solution that is not modified with time. Unlike synthetic and organic antimicrobial substances, such as triclosan, silver is a non-toxic molecule.

99,9% bacteria eliminated

- Escherichia coli ATCC 8739
- Enterococcus hirae ATCC 8043
- Listeria monocytogenes ATCC 15313
- Staphylococcus aureus (MRSA) ATCC 33592
- Staphylococcus aureus ATCC 6538
- Salmonella enteritidis⁽¹⁾ ATCC 13076
- Mycobacterium smegmatis ATCC 19420

* Touch finish benefits from inherent antibacterial properties and do not require the Sanitized® label. / (1) 99.84% effectiveness

REYSIPUR®

COMPACT SOLID GRADE LAMINATE

Waterproof & self-supporting material

The Compact Solid Grade Laminate Reysipur® is a dense self-supporting decorative panel with a black core offering high surface resistance to scratches, abrasion & impact.

Its high resistance to humidity allows the creation of fittings for all washroom areas (changing rooms, shower cubicles, toilets, locker rooms) and for all applications (cubicles, wall cladding and partitions, vanity units, lockers etc.)

POLYREY HPL®

HIGH PRESSURE LAMINATE

Hard wearing, resistant & versatile

Polyrey HPL® is a versatile product offering outstanding durability with high resistance against impact, abrasion and general surface wear. Its surface is impervious to water and maintains its integrity even in the most heavy duty applications.

Polyrey HPL® is readily available in larger sheet sizes specifically aimed at washroom and related applications offering the best optimisation and most cost-effective solutions.

PANOPREY®

MELAMINE FACED BOARD

Decorative & economical

Panoprey® Melamine Faced Board offers the most cost-effective solution for non-wet area applications. It is a self-supporting, moisture resistant board with a chipboard core with two decorative faces, which are impregnated with melamine resin.

For lower traffic environments, the Panoprey® offer is an efficient alternative that complements the range.

Labels

The expert's advice

- Create an air flow to allow ventilation.
- Consider and allow for expansion of the product.
- Design wall coverings with or without a framework depending on the substrate.
- Please refer to the product maintenance sheet for specific recommendations for the TOUCH finish.

Certificates & technical data are available at www.polyrey.com

** Touch finish benefits from inherent antibacterial properties and do not require the Sanitized® label.

REYSIPUR®

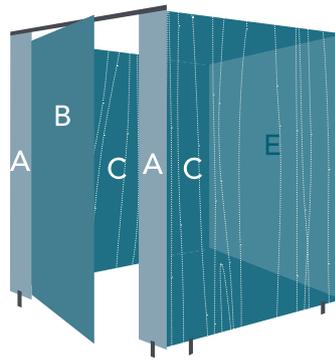

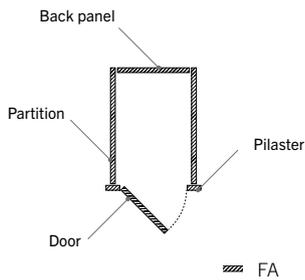

COMPACT SOLID GRADE LAMINATE

4 SIZES FOR
MORE VERSATILITY

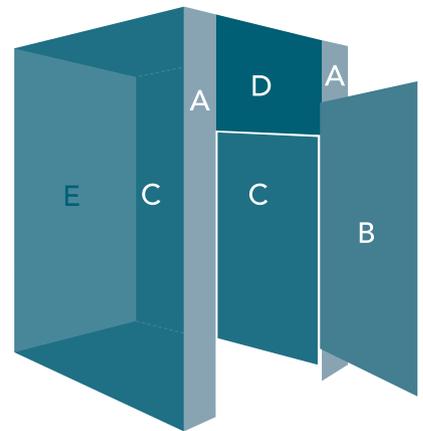

FA (satin)

SIZES : 366 × 151 cm • 260 × 205 cm

An optimised range in the FA (satin) finish for all your washroom area design.

Standard Cubicle

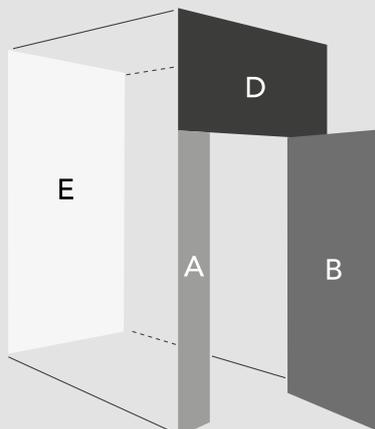

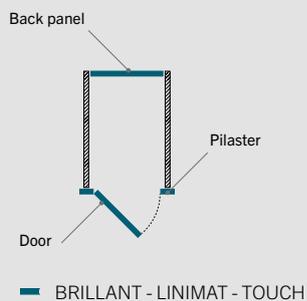

Full Height Cubicle

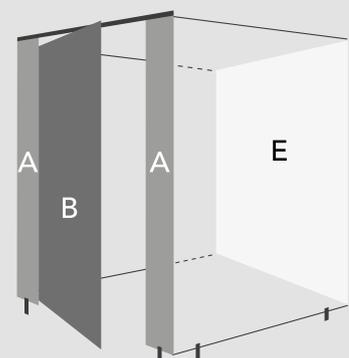

BRILLANT, LINIMAT, TOUCH

SIZES : 307 × 124 / 305 × 132 / 307 × 132 cm • 215 × 97 cm

Finishes with character for doors, pilasters and back panels with a high-end result.

Full Height Cubicle

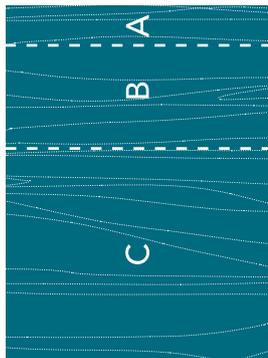

Standard Cubicle

Optimisation suggestions

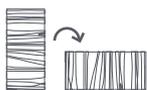

Standard Cubicle

260 x 205 cm

These panels can be positioned horizontally to create a partition, door and pilaster.

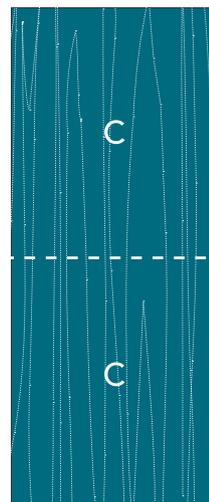

They safeguard privacy with a height >2m.

The horizontal woodgrain decors allow the design to be vertically set once the panel is turned.

Standard Cubicle

366 x 151 cm

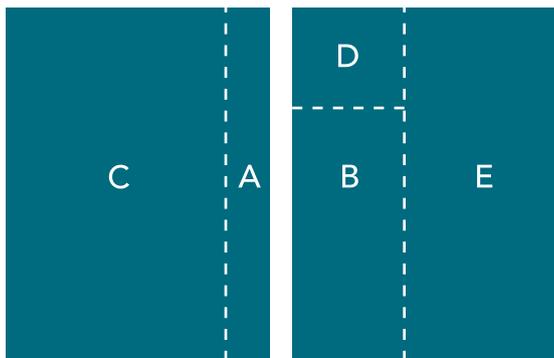

Two partitions can be made from this size.

This size is also recommended for making lockers.

Full Height Cubicle

260 x 205 cm

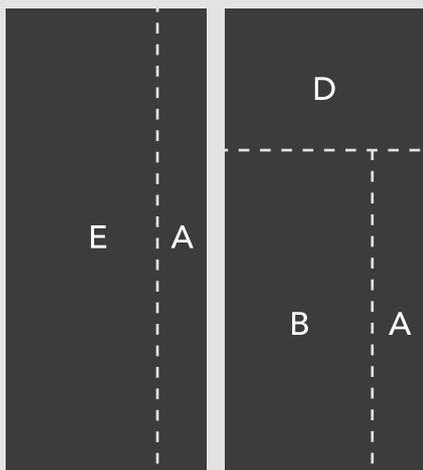

When positioned vertically, these sizes are suitable for most ceiling heights.

- A Pilaster
- B Door
- C Partition
- D Overpanel
- E Back panel

Full Height Cubicle

307 x 124 / 305 x 132 / 307 x 132 cm

Two panels will cover all Premier applications (door, pilasters, overpanel and back panel)

For partitions, please refer to following sizes: 366 x 151 cm and 260 x 205 cm.

The Touch finish is also available in 215 x 97 cm for deep matt and anti-fingerprint cubicle fronts (door and pilaster).

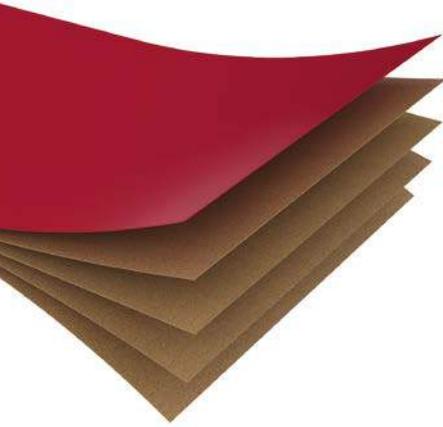

Standard Cubicle

215 x 97 cm

EDUCATION

CUSTOMISABLE

Signature Library decors can be co-ordinated with plain colours to enliven designs with a touch of fantasy.

Inspiration

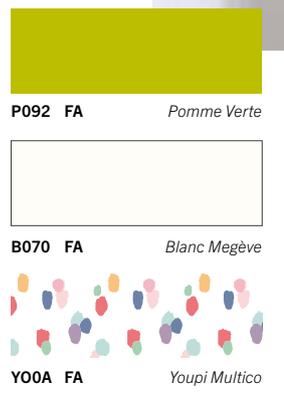

Awakening

Softness

Fun

Bright colours add liveliness and fantasy to teaching environments for young children. Signature Library offers a broad scope for creative freedom with its fun and colourful decors. Through combinations with woods and materials, spaces can be furnished with greater sobriety for higher education establishments.

HEALTHCARE

ANTIBACTERIAL

The Sanitized® treatment eliminates 99.9% of bacteria on the surface of our products. These antibacterial properties, alongside its easy cleaning, make the Cubicle & Washroom offer the ideal solution for the healthcare sector.

Delicate patterns combined with aquatic shades are a source of serenity and optimism. All together they allow the creation of bright spaces ideal for healthcare environments.

FINISHES

2

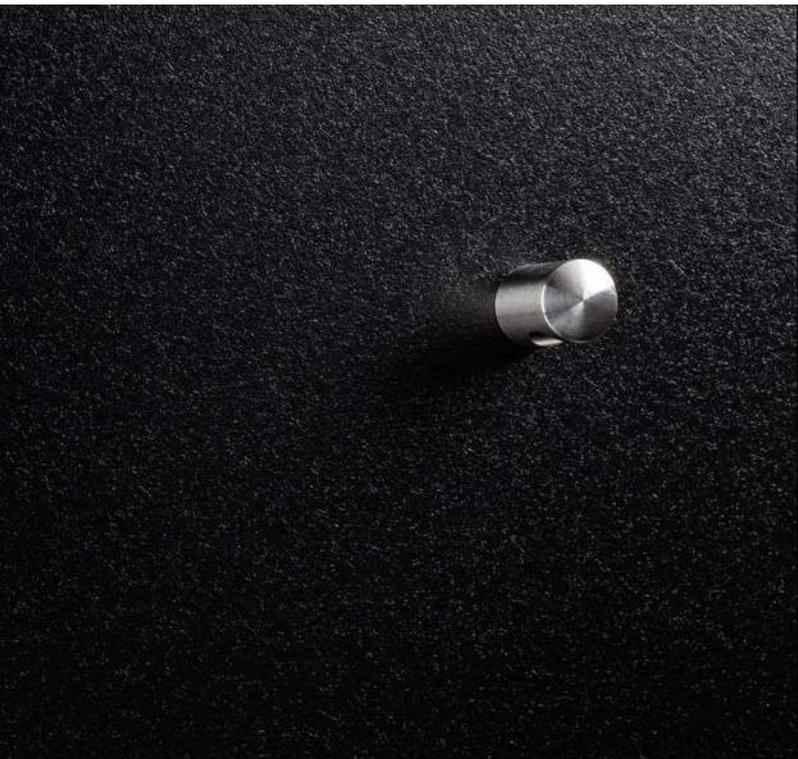

Essential finishes for simple, understated projects.

/// FA - SURF

FA

Light satin finish with an extra fine grain and soft texture, charming purity and discretion.

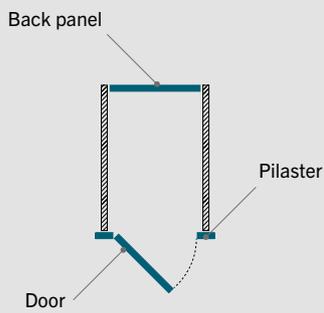

Surf SUR

Fine grainy texture for a pleasant sanded effect that gives extra soul to the decors.

3

Ultra-contemporary finishes for high-end results.

— BRILLANT - LINIMAT - TOUCH

Brillant BRIHG

A varnished effect for brightness that enhances the intensity of plain colours.

Touch TCH

A surface with a silky smooth effect and a deep matt finish that absorbs light.

TOUCH, a finish with anti-fingerprint technology.

Linimat LIM

A lined and matt surface finish that adds character and a contemporary feel to the different varieties of wood.

To confirm aesthetics of our products, we recommend checking the targeted colour with a real sample.

For BRILLANT finishes, the final result may differ slightly between HPL and compact HPL. Ask for a sample in compact HPL Reysipur® to validate the end aesthetic of your product.
